PRATHAMESH GUDAME

Karlsruhe, Germany | prathameshgudame1@gmail.com

ABOUT ME

Master's student in Electrical Engineering and Information Technology at Karlsruhe Institute of Technology, specialising in Automation, Robotics and Systems Engineering. Background in industrial control systems, embedded systems, IoT, and IT project governance. Currently on a student visa with 120 permitted working days per year. Seeking Werkstudent or internship opportunities in Automation, Engineering, or IT Project Management. Fluent in English; German A2, actively improving.

EDUCATION

Karlsruhe Institute of Technology|**M.Sc in Electrical Engineering and Information Technology | Specialising in Automation, Robotics and Systems Engineering** — Apr, 2026 – Present

Vivekanand Education Society's Institute of Technology (VESIT) | **B.E Electronics Engineering** | Mumbai, India | GPA: 8.05/10 (German Equivalent: 1.9) — Apr, 2020 – 2024

WORK EXPERIENCE

Trent Limited, Mumbai | *IT PMO Executive* — **Oct, 2024 - Dec, 2025**

- Tracked project governance across 12 retail IT initiatives for a Tata Group company (800+ stores), monitoring timelines, risks, and delivery milestones
- Prepared weekly status reports and Power BI dashboards for C-level stakeholders, consolidating KPIs across multiple project streams
- Maintained risk logs, issue registers, and change requests in compliance with PMO governance frameworks

Pravin Electronics, Mumbai | *Engineering Intern* — **May, 2024 - Oct, 2024**

- Designed and assembled industrial control panels (heater control, power source, and Star-Delta starter panels), applying analog/digital circuit design, MCBs, selector switches, and automation logic
- Integrated K-Type thermocouple sensors into control panel assemblies to enable accurate thermal monitoring and closed-loop feedback control
- Conducted functional testing in manual and auto modes using multimeters and oscilloscopes, debugging electrical faults and validating thermal response and electrical stability

i-Stron Corporation Pvt. Ltd, Mumbai | *Engineering Intern* — **May, 2023 - July, 2023**

- Assisted in the design, development, and testing of IoT-based smart car parking solutions, integrating sensors and embedded systems across multiple parking system variants (StackPark, PuzzlePark, VertiPark)
- Supported implementation of RFID and ANPR (Automatic Number Plate Recognition) systems for secure and automated vehicle access control

PROJECTS

Speech Emotion Recognition using Machine Learning (Final Year B.E Project 2023-24)

- Developed a CNN-based web application to classify human emotions from audio inputs in real time, achieving accurate emotion detection across multiple emotional states
- Applied signal processing techniques for audio feature extraction (MFCCs), deep learning (CNN architecture), and NLP to build a robust and scalable emotion recognition pipeline
- **Tech** : Python, TensorFlow/Keras, MFCC, CNN, Flask/Web Framework

Arduino Automated Car Parking System

- Designed and implemented an embedded IoT system using Arduino and ultrasonic/IR sensors for real-time parking space detection and automated driver guidance
- Developed a display interface to communicate live parking availability, reducing vehicle idle time and optimising space utilisation
- **Tech** : Arduino, C/C++, Ultrasonic Sensors, IR Sensors, LCD Display

Design of Automated Floor Cleaning Robot

- Built a self-navigating autonomous floor cleaning robot using wireless robotic technology, implementing obstacle detection and path traversal logic for unattended operation
- Integrated dual cleaning modes (dry) for efficient and comprehensive floor coverage without manual intervention
- **Tech** : Embedded Systems, Wireless Communication, Motor Control, Sensors

TECHNICAL SKILLS

Programming & Tools: Python, MATLAB, Arduino, Power BI, Tableau, AutoCAD, SAP S/4HANA
Domain Knowledge: Control Systems, Embedded Systems, IoT, Sensors & Instrumentation, Machine Learning, Signal Processing
Project Management: IT PMO, Project Governance, Risk Management, Stakeholder Coordination, Technical Documentation

CERTIFICATIONS

Business Analytics Specialisation – Wharton / University of Pennsylvania (Coursera), 2023
Six Sigma White Belt – Council for Six Sigma Certification, 2025
CAPM Exam Prep Seminar (25 PDUs) – Instructing.com, 2025
Power BI Virtual Case Experience – PwC / Forage, 2023

EXTRACURRICULAR ACTIVITIES

Sports Secretary, VESIT Student Council (2022-2023) – Planned and managed sports events for 2500+ students
Junior Deputy Sports Secretary, VESIT Student Council (2021-2022)
SoRT (Social Responsibility Team) Class Incharge (2023-2024) – Led community engagement and social awareness initiatives

LANGUAGE SKILLS

English (C1) – Professional Working Proficiency
German (A2) – Actively Improving
Hindi – Native
Marathi – Mother Tongue

HOBBIES AND INTERESTS

Football **|** Mixed-Martial Arts (MMA) **|** Travelling **|** Community Volunteering (VESIT Social Responsibility Team 2023-24)
